

Dear Ismet, dear sisters,

We are finally replying to your invitation and are happy to join your project relating to the victims of the terrible earthquake, occurred in Turkey on 30th October.

All members of SI Lamezia Terme Club have enthusiastically welcomed the opportunity to give a concrete contribution to your cause!

Cooperating on this project is our way to give support and friendship to all Turkish women and girls affected by the earthquake and it is also a way to strengthen the links we have already established between the Italian SI Club of Lamezia Terme and the Turkish SI Club of Izmir.

We devote this support action between our Club, within the European Federation, to the promotion of friendly relations among peoples and to our common desire to make the world a better place to live.

Please find enclosed in this email a copy of the receipt certifying the sum of 300,00 euro paid by bank transfer, with the reason:” Together in hard days supporting 35 earthquake victims”, made payable to Sukran Karaok”

In greeting you, our president Rossella Aiello and all our sisters, are wishing you and your beautiful city, severely tested, a new start, in the hope that things can get better very soon.

Rachele Iovene
